

# 20-21 Details

With putting student and staff safety first, changes have been made to accommodate for COVID-19.

## Mask Policy

**Masking is required for all students and staff.**

For the health and safety of the entire community, there cannot be any exceptions to this rule.

Students may wear their own masks or they will be provided a fresh fabric mask daily. If students elect to wear their own masks, the mask may be a solid color or print as long as the print is appropriate (i.e., contains nothing profane, no references to drugs, alcohol, etc.) Masks may not feature words.

A student can receive a dress code violation or further disciplinary action should they not follow all mask requirements.

## Electronics Policy

**Cell phones and electronic devices (other than their school issued Chromebook) will not be turned in to the front office every morning.**

Students may keep their device on their person (or in their Chromebook case, jacket pocket, etc.) but **all devices that are brought into the building must be put away and turned off during the entire school day.**

If any device is seen out during class or goes off during school hours it will be confiscated and our current electronic policy will go into effect.

## Chromebooks

**Since all students have been provided a Chromebook for learning, students who have chosen the hybrid model must bring that Chromebook to school every day.**

*Should a student not bring it with them to school a parent will be contacted. Someone will need to bring it to the school or the student will need to be picked up.*

## Student Expectations

**While in the building students are expected to follow all HSAS expectations & procedures.**

During Hybrid, merits will still be given out if a student repeatedly chooses not to follow school expectations.

**Students are expected to follow all social distancing school guidelines. Should they have trouble staying physically distant while in the building they may have to be removed to remote learning.**

Please view our handbook online at <http://bit.ly/hsas2020> to see our full disciplinary policy.

**Please email [info@horizonspringfield.org](mailto:info@horizonspringfield.org) if you have any questions.**
